

Croeso i Track 2000 - Welcome to Track 2000

Track 2000 is a community based charity that works to alleviate poverty within Cardiff and the Vale by reusing and recycling household furniture. Established in 1991, our operations work to ensure that families, local community groups and individuals have access to good quality, affordable furniture and household appliances; this in turn prevents unnecessary waste going to landfill sites...

We welcome donations of household furniture and appliances and our community shops are open to the general public.
